Hwatime Medical. Make life more brilliant

Comprehensive and powerful testing solutions

H8
Patient Monitor

H8 Patient Monitor

Vital signs show perfectly

Let vital signs of each kind of bedside and patient monitoring be more comprehensive and more scientific

- Detection parameters: ECG / heart rate, noninvasive blood pressure / pulse rate, oxygen saturation, respiration, pulse, and body temperature
- Color TFT 12.1 inch LCD HD Monitor
- Enjoy patented technology of the blood pressure measurement
- Portable, suitable for bedside, ICU guardianship, CCU monitoring
- Anti-defibrillation, the anti electric knife
- ECG digital filtering
- Operating system has Chinese / English etc, 14 languages

- Blood pressure storage and playback of 8000 groups above
- Run chart storage and playback more than 680 hours
- Alarm event storage and playback of 200 groups
- Wave form storage and playback of 12 hours
- Embedded with high capacity of rechargeable batteries, AC and DC
- Be able to connect with central monitoring system, support wire and wireless networking, system software supports network upgrading
- Possessing drag density calculation, breathe oxygen and figure, and ST analysis

Standard interface diagram

Clear, st analysis, providing more comprehensive diagnosis information

Full lead interface

7 lead/12 lead real time same-screen display, be convenient for medical staff to observe patient's dynamics in whole period

Tendency diagram

According to the requirements of clinics, capture data of different period for retrospective analysis

Big interface diagram

Be convenient for medical staff to observe patient's conditions from a great distance

Optional: Carbon dioxide of the expiration tip, invasive blood pressure, touch screen, child (infant) components, and recorder

Double invasive blood pressure (IBP)

Adopting double-channel measurement, and realizing continuous testing blood pressure variation of severe patients

Grapher

Be convenient for conducting analysis and filing for patient's conditions at any time and any place

Be able to monitor ecg etc, physiological parameter for single adult, child or infant.
Reliable quality and stable system make medical decision maker more confident, and powerful storage volume ensures free of missing any clinical data.

Hwatime Medical, quality talks, dedicated in building more humanized products, and let medical staff more proficient.

Fixed handle

Comfort hand sense, and firm shell.
Portable, save time and effort.
