Examination Light

LED检查灯

LED检查灯是医护人员在对病人进行局部检查、诊断、手术、治疗及护理中常用的辅助照明光源设备。主要用于妇科、五官科等手术检查，灯头可在任意角度弯曲，使用时极为方便。

采用LED为主光源，具有耗电低、使用寿命长（灯泡寿命3万小时以上）、节能环保等功能；照度可达2200lx。

LED examination light is a auxiliary lighting equipment commonly used hospital patients in the partial examination, diagnosis, surgery, treatment and care. Mainly used in gynecology, ENT and other surgical inspection. Lamp can be bent at any angle, it is extremely easy to use.

Adopt LED as the main light source, with low power consumption, long lifetime (bulb lifetime over 30,000 hours), energy-saving, environmental protection. Illumination reaches 2200lx.

基本参数:

1. 电源电压: AC-220V 50Hz
2. 灯泡色温: > 3200K

Basic parameters

1. Voltage: AC-220V 50Hz
2. Color temperature: > 3200K

简介

Introduction

合肥和尔适科技发展有限公司是一家集科研、生产、服务为一体的医疗器械专业制造商。先后荣获了“国家高新技术企业”，“安徽省医疗器械生产企业AAAA级质量守信等级单位”，“安徽省企业技术改造专项计划”，“合肥市双千工程入库项目”等多项荣誉。公司主导产品有：D系列冷光手术无影灯，LED系列手术无影灯，机械和电动、液压多功能手术台，妇科产床及检查床，医用吊塔，ICU重症监护室吊桥等专用医疗设备。

长期以来，公司产品以其实用性和先进科学技术的优势赢得了广大海内外客户的赞誉。

HEFEI HE ER SHI technology development Co., Ltd. is a professional medical equipment manufactures, which was invests by Shanghai feather technology development Co., Ltd. The company focus on scientific research, production and service of medical equipment. Has won many honors, such as, the "National high and new technology enterprise", "Anhui Province medical equipment production enterprises AAAA quality trustworthy unit levels", "Anhui province enterprise technical reformation special plan award", and "Hefei City double thousand project". Our company major production: the series of D cold light operation shadowless lamp; LED series operation shadowless lamp; mechanical and electrical; hydraulic multifunctional operation platform, gynecological examination bed bed, medical hanging tower, and ICU bridge and other Professional medical equipment.

The company production with its practical and science and technology advantage to win the oversea customer praise.
